Bridge over the Passaic River, replacement; Vicinity of Main Avenue to vicinity of Route 17, service road operational improvements

This project will provide for safety and operational improvements from west of the Route 17 interchange in Lyndhurst to east of the Main Avenue interchange in Clifton. Improvements include the replacement of eight structures (Route 3 over Passaic River, Route 3 over NJ TRANSIT, Route 3 over Lower Pond, Route 3 over River Road, Route 3 over Route 21 ramps Park Avenue over Route 3, Ridge Road over Route 3, and Orient Way over Route 3), addition of a 12-foot auxiliary lane eastbound and westbound to alleviate the congestion experienced through the corridor during peak periods, specifically at the ramp merge points and the Passaic River Crossing. In addition to the auxiliary lanes, standard acceleration and deceleration lanes will be provided to safely transition vehicles to and from the highway. The existing roadway is a limited-access urban freeway/expressway and does not contain special provisions for bicycle and pedestrian compatibility; the proposed project does not change the existing conditions.
